SUMMARY

Full Stack AEM Developer with 5+ years of experience building and integrating enterprise websites using AEM on-premise and AEMaaS. Skilled across frontend (HTML5, CSS3, SASS, JavaScript, HTL, React) and backend (Java, Sling Models, OSGi, Servlets, workflows, schedulers) development, with hands-on experience in headless AEM, REST APIs, Dispatcher configuration, DAM management, and integrations with Adobe Analytics, Target, and Launch.

TECHNICAL SKILLS

Languages	Java, JavaScript, Python, C, C++, HTL
Frontend	HTML5, CSS3, SASS, jQuery, ReactJS
AEM & CMS	AEMaaS, AEM On-Prem, Sling Models, OSGi, Servlets, Content Fragments, Experience Fragments, Dispatcher, MSM, DAM, Headless AEM
Adobe Integrations	Adobe Experience Platform (AEP), Adobe Launch, Adobe Target, Adobe Analytics
Backend & APIs	JSP, RESTful APIs, JUnit, Workflows, Schedulers, Event Listeners
DevOps & Tools	Maven, Git, Jenkins, CI/CD Pipelines, SonarQube, CodeQL, Azure Boards, IntelliJ IDEA, VS Code, Eclipse
Other	WCAG/ADA Compliance, JVM Performance Tuning, Agile Methodology, Client-Facing Communication, Figma Collaboration

WORK EXPERIENCE

Senior Software Engineer, Bounteous and Accolite

Jan 2026 - Present

Guardian Glass Project, Hyderabad

- Developed custom AEM components and extended OOTB components using HTL, HTML5, CSS3, SASS, and JavaScript to deliver dynamic, reusable UI functionality.
- Built and maintained backend modules using Java, Sling Models, OSGi services, and Sling Servlets, ensuring a modular, cloud-ready architecture in AEMaaS.
- Built reusable content structures using Content Fragments and Experience Fragments, enabling omnichannel publishing through Headless AEM and RESTful endpoints.
- Collaborated with UX/UI designers to convert design mockups into responsive, cross-browser AEM components.
- Participated in client-facing meetings, gathering requirements and translating business needs into technical solutions.

Senior AEM Developer, Infosys Limited

Aug 2024 - Jan 2026

Coca-Cola Project, Hyderabad

- Automated business processes by writing custom workflows, workflow steps, process implementations, and workflow launchers with configurable behavior.
- Set up Dispatcher rules, caching/invalidation strategies, filter rules, and rewrite rules to optimize content delivery and reduce load on publish instances.
- Enhanced reliability through Sling Event Handlers, Event Listeners, and Schedulers for asynchronous content management tasks.
- Integrated Adobe Experience Platform (AEP), Adobe Launch, Adobe Target, and Adobe Analytics into AEM, enabling data-driven personalized content experiences and audience segmentation.
- Integrated third-party systems through REST APIs and implemented JSON Exporter with Sling Models, optimizing headless responses for web and mobile apps.

AEM Developer, Tata Consultancy Services

July 2021 - Aug 2024

Virgin Atlantic Airways Project, Hyderabad

- Built Editable Templates by configuring structure components, initial content, and template policies for consistent design governance.
- Built Touch UI dialogs with validations, optimized client libraries for efficient CSS/JS loading, and integrated the Style System for consistent UI design.
- Managed on-prem/AMS author-publish-dispatcher setup, handling replication, activations, and cache invalidations for content synchronization.
- Configured DAM workflows, asset folder structures, and metadata schemas, improving asset accessibility across teams.
- Ensured WCAG and ADA compliance by developing accessible components and testing across devices.
- Analyzed JVM heap dumps to optimize memory usage and enforced code quality/security with SonarQube and CodeQL in CI/CD pipelines.

EDUCATION

Bachelor of Technology in Computer Science (B.Tech CSE), Bapatla Engineering College	2017 - 2021
Intermediate, Mathematics and Computers, Jawahar Navodaya Vidyalaya	2015 - 2017

CERTIFICATIONS

- AD0-E117: Adobe Experience Manager Sites Architect Master
- AD0-E128: Adobe Experience Manager Sites Developer Professional
- Claude Certified Architect – Foundations
